

CMMI and Software Processes

Exercise Sheet 1

1. Prepare a CMMI-conformant plan for your study activities from now to the end of term
2. Explain how this plan satisfies the (specific and generic) requirements of CMMI. Which requirements are relevant?
3. How can you track your work based on this plan?

The plan should be realistic and actually be used.

Hand in two copies (one without name); additionally, have one copy for your own use.

Hand-in date: 17 April, 2003
