

## Preface

Mr. Ralf Kneuper handed out several assignments during the summer term 2003. We needed to successfully complete at least 50% of them in time to be eligible for the written exam. Up to now, I cannot understand why teamwork was forbidden. Nevertheless, these assignments gave interesting insights into the concepts, structure and problems of the Capability Maturity Model Integration (CMMI).

My solutions are available online as PDF files which can be read by using the free Adobe Acrobat Reader. Nowadays, this tool is found on most systems – both main platforms Windows and Linux. If do not have the Acrobat Reader installed on your computer then you can either download it from [www.adobe.com](http://www.adobe.com) or just buy a good computer magazine – most of them come with a CD that contains it. Unfortunately, I cannot afford an expensive tool to generate these PDFs and have to use the free Ghostscript suite. The only drawback is the missing ability to embed hyperlinks: even though they are blue and underlined there is no possibility to actually click them, they are passive.

I am quite happy to receive any annotations, corrections and hints: feel free to write your comments to [mail@stephan-brumme.com](mailto:mail@stephan-brumme.com) !

*To make it finally clear: I do not take on any responsibility concerning the correctness of my solutions. They may contain errors, wrong assumptions or buggy code.*

Sincerely yours,

Stephan Brumme

*The trick is to keep breathing.*
